

# op selection...

Over the years substantial advances have been made in fabric composition and efficiency of individual mop heads and, once again, specific requirements must be taken into account in the selection of the appropriate specification for the floor areas to be maintained.

In principle the long established Kentucky mop provides substantial water-holding capacity, allowing floors to be washed and virtually dried and is still favoured in many warmer climates.

The Loop Flat mop provides all the convenience of flat mopping with a moderate water-holding capacity.

The NyloStripe Microfibre mop represents the best of all worlds with good water-holding capacity and excellent cleaning performance by virtue of the active nylon cleaning bar design, allowing floors to be cleaned quicker, with less liquid, thus providing a shorter drying time.

## Kentucky Mops

## Pocket Mops

Slalom 40cm Pocket Loop Mop Fits DTK2

## Hang-On Mops

Slalom 40cm Hang-on Loop Mop Fits DTK3

## Velcro Mops

Slalom 40cm Velcro Loop Mop Fits DTK4

Slalom 40cm Pocket Nylostripe Microfibre Mop available in Blue, Red, Green or Yellow, Fits DTK3

Slalom 40cm Hang-on Nylostripe Microfibre Mop available in Blue, Red, Green or Yellow, Fits DTK3

Slalom 40cm Velcro Nylostripe Microfibre Mop available in Blue, Red, Green or Yellow, Fits DTK4

## Mop Kits

Firstly chose a mopping system that suits your needs and the areas to be cleaned. Now choose the actual mop type that suits the application and the person, or people, that will actually do the cleaning. The correct selection at the beginning will give you a good result at the end.

# Mopping... more than mops and buckets

**MultiMop 30** Super clean floors, not to mention walls and even ceilings. Our long established giant 35cm sponge mop that absorbs more than 10 times its own weight in liquid. Virtually self-cleaning in use due to the unique "Squeeze Clean" action.

4 colours allows colour-coded control.

4 colours allows colour-coded control.

Kentucky Mop

**DualMop 1520** A truly practical, compact dual bucket system, easier to use than most. Full access to both buckets and the superb dual press allows use with Kentucky, flat microfibre and loop mops. Robust construction, fully mobile and good looking, you won't find better.

## SprayMop Master SMM40

The professional spot cleaning system with all the benefits of our unique Nylostripe microfibre mop heads and a built in pump action reservoir for your chosen cleaning preparation.

**Simple, Effective, Quick and Complete**

**Hi-Bak 1812** The Hi-Bak 1812 is a true professional, compact and effective two bucket system in a single bucket. The clean water capacity is a full 18-litres and our unique dual press allows use with flat or Kentucky mops.

**TwinMop 2815/2815W** The TwinMop series is a world first being compact in size, robust in construction and incorporating our unique AWS (Automatic Water Separation) system. AWS means you only work from the one front, oversize, 28-litre, clean water bucket, with dirty water automatically discharged into the rear, red dirty water pail.

The Dual Press allows use with both Kentucky and flat mops.

The 2815W has all the features of the 2815 but incorporates a clever onboard 30-litre lidded waste bin and deep storage tray – allowing increased scope within the cleaning regime.
